EDUCATION

KLE Institute of Technology, Hubli
Bachelor of Engineering in Computer Science – 7.62CGPA

Dec 2021 - July 2025
Hubli, Karnataka

WORK EXPERIENCE

Newnop Technologies Private Limited
Software Development Intern

Nov 2025 – Present
Bangalore, India

Currently working on front-end development using React.js and JavaScript, contributing to building and optimizing user interfaces. Gaining hands-on experience in component-based architecture, API integration, debugging, and implementing responsive design while collaborating with the development team on real-time projects.

PROJECTS

Placement Cell Management System

- Developed a web-based application to streamline campus placement processes. Implemented student registration, job listings, recruiter login, and admin dashboards. Integrated secure authentication and CRUD operations for efficient data management.
- Technologies Used: **HTML, CSS, Python.**

Canteen Management System — [GitHub Link](#)

- Built a basic AI-powered chatbot using Python and Flask for backend processing and real-time communication with users through a dynamic frontend. Designed the conversational flow to simulate human interaction, improving response accuracy based on keyword triggers.
Integrated with a user-friendly interface using Flask for real-time interaction.
- Technologies Used: **Python, HTML, CSS.**

Face And Hand Landmark Detection — [GitHub Link](#)

- Implemented real-time face and hand landmark detection using OpenCV and MediaPipe. Captured and analyzed key facial and hand points to enable gesture recognition and facial expression tracking for interactive applications.
- Technologies Used: **Python.**

TECHNICAL SKILLS

Languages: Java, Python, JavaScript

Technologies & Frameworks: HTML, CSS, React.js

Database: SQL

Version Control & Collaboration: Git, GitHub

SOFT SKILLS

Good Communication, Problem Solving, Teamwork, Leadership.
Spoken Languages: English(fluent), Hindi(fluent), Kannada(fluent).

CERTIFICATIONS

Tap Academy — Java Full Stack Developer Intern:

July 2025 - Present

Completed intensive full-stack development training and internship focused on Java, covering core Java, OOP, JDBC, Spring, and frontend technologies like HTML, CSS, JavaScript, and React. Worked on real-time projects to build and deploy full-stack web applications.

Board Infinity—Data Science Training:

Completed a comprehensive training program focused on core data science concepts, including statistical analysis, machine learning, and data visualization. Gained hands-on experience with Python libraries such as NumPy and Pandas, and worked with tools like Power BI and Excel for data analysis, visualization, and reporting.
